Safe Handling of Crop Protection Products

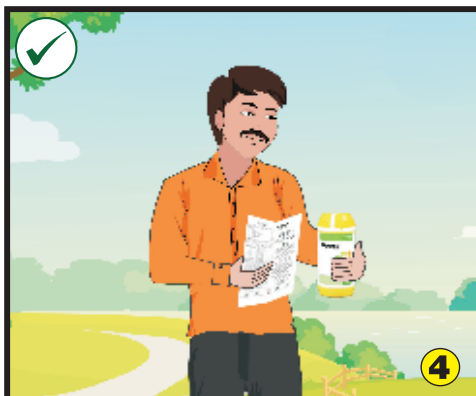

1
Seek Advice before buying pesticides. Buy them from authorized retailers and ask for a bill.

2
Never transport pesticides together with food items- fruits and vegetables.

3
Always store pesticides in a locked and well ventilated place which is beyond children's reach.

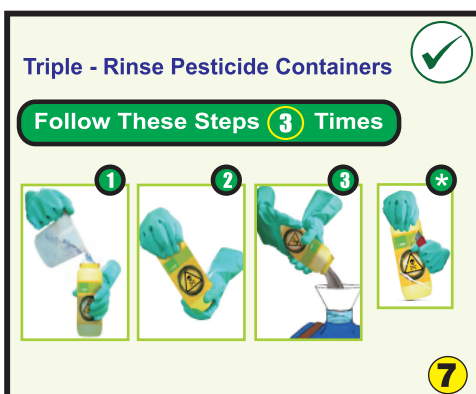

4
Always read product labels and leaflets carefully.

5
Do not mix with bare hand, use Stick for mixing. Wear the right Personal Protection Equipment while mixing & spraying .

6
Never eat, drink or smoke while you are spraying pesticides.

Triple - Rinse Pesticide Containers

Follow These Steps 3 Times

7
1. Quarter fill the container with water. 2. Close the container and shake it for 30 seconds. 3. Empty all solution from the container in the tank. Hold it there for 30 seconds or more.
*Protect your health. Puncture the container so it cannot be reused.

8
Do not throw empty pesticide containers in water bodies or in the field or near livestock and never use empty pesticides containers for storing food or water.

9
After spraying pesticides, wash Personal Protection Equipment, wash your clothes and take a bath.
